

#### PADLET TUTORIAL

für den Online-Unterricht

## Registrieren: www.padlet.com

## Email + Passwort vergeben

#### Ein Padlet erstellen

#### Format auswählen

# I) Modifizieren: Hintergrund wählen

#### I) Modifizieren: Titel und Beschreibung

#### I) Modifizieren: Kommentare erlauben

#### I) Modifizieren: Nächste + Schließen

## II) Spalten benennen

# II) Spalten "befüllen" ...

#### II) ... mit Dateien, Links, Fotos, ...

## II) URL hineinkopieren + speichern

## II) Post betiteln

#### II) Neue Spalten hinzufügen + betiteln

#### III) Teilen (mit Schülern oder Kollegen)

## III) Link in Email einfügen

# III) QR-Code herunterladen + in AB einfügen (oder via Beamer zeigen)

# III) Eingabe schließen

#### IV) Klonen (für verschiedene Klassen)

#### IV) Titel vergeben und absenden

## V) ...: Archivieren

## V) ...: Format ändern

#### Fazit:

- Intuitive Handhabung
- Leicht zu bedienen
- Klare Strukturen

- Darstellbar auf Handy, IPad und/oder PC
- Lässt Austausch zu (Kommentare oder Posts der Schüler möglich)
- 3 Formate kostenlos (Tipp: ältere Padlets archivieren)
- Ideal für Online-Unterricht
